The Matter of Assisting Such Importation.

NEW YORK, August 20.—The steamer Normannia, smiling from Europe to-day, brings 250,000 gold, consigned to J. & W. Seligman & Co.

President Tappen, of the Gallatin National Bank, and President Simmons, of the Fourth National Bank, who have been in consultation regarding the matter of assisting the importation of gold, have decided that the situation does not call for the necessity of concerted action by the banks, for the present, at least. There is a rumor in the street that arrangements are under way by a large commercial house for importing \$3,000,000 more gold.

was convened again, and on the refusal of counsel for the accused to enter a motion for new trial, the court on its motion set aside the verifict and awarded a new trial, giving as his reason for so doing that the verifict was contrary to the evidence in the case; as Weatherholtz was either guilty or not guilty of murder in the first degree.

The new trial is set for the September term.
